"S'E STOOPS TO CONQUER."

Goldsmith's ever enjoyable comedy. " she stoops to Conquer," watch was first produced one year before the premature death of its author, has just been revived at the Fifth Avenue Theatre, by Stuar: Rotson, an actor scarcely calculated to understand its atmosphere or its significance. Mr. Rouson has endeared himself to New Yorkers by the very excellent comedy work he did with his old partner, William H. Crane. Like Mr. Crane, he is essentially an actor of modern plays, and his interpretation of the role of Tony I umpkin will not and to his laurels.

Mr. Rotson makes Tony a New Inglander rather than an old Englander, and he finds his humor in the annoying mann froms that characterize the farce-comedy efforts of Jimmy Powers. There is the lisp for which, however, Robson is famous; there is an unnatural laugh, and there is the constant comedy landness that is partly the paraphernalla of the ster from whom mirth is expected. Mr. Robson as Tony Lumpkin is never funny with the aid of Gordamith. The situations in the play do not fus; ice him. He has far more faith in Robson and his own ability to extract humor from vocal tricks and personal eccentricities. That would be all very well were the author of "She Stoops to Conquer" Mr. Hoys or Mr. Gratton Bonnelly or Messrs. people walked in front of me, and I specus.
